

Operation Mode and Configuration Mode

By default, the switch's operation mode is activated when it starts up.

Welcome to PicOS L2/L3 on XorPlus

```
admin@XorPlus>
```

Activate the configuration mode by entering the configure command. Be sure to enter the configuration mode if the admin@XorPlus# prompt appears.

```
admin@XorPlus> configure
Entering configuration mode.
There are no other users in configuration mode.
admin@XorPlus#
```
